### **Change To Electronic Trading Hours For IFUS Currency Contracts**

**Effective with the start of trading for trade date Monday, February 14, 2011**, the Exchange is implementing a change to electronic trading hours for the USDX futures and options contracts, the Euro Index futures contract and for all currency pair futures contracts on the ICE electronic trading platform: the trading day for these contracts will now end at 5:00 pm NY time.

This change does not affect the start of the electronic trading day for these products (which remains as 6:00 pm NY time on Sunday evenings, 8:00 pm NY time Tuesday through Thursday evenings) or the settlement window for these products (which remains 2:59 to 3:00 pm).
